

# COMPACT AC GEARED MOTOR

We deliver New Compact AC Geared Motor meeting your needs in any applications.

Offers wide variations, and also supports custom specifications.

## [Motor]

### Global standard - International certification

- CE/UL/CCC marked
- One motor can be used for various range of voltage with a choice of capacitor

### Wide range of motor variation

- Induction motor
- Reversible motor
- Three phase motor
- Various speed motor
- Electromagnetic brake motor
- C&B motor (Only for Japanese version)

### Environment friendly

- No components used for environmentally

## [Gear head]

### Wide range of gear head variation

- Ball bearing type
- Metal bearing type
- High torque type
- Right-angle type
- Decimal gear head

### Slim design but, long life-time

- 10,000hours for Ball bearing type
- 23mm(Max.) shorter length (vs previous generation)

## [Speed controller]

### Applicable for wide range of input voltage

- UL/CE marked
- Input voltage   Single phase 100-120V  
                          Single phase 200-240V
- Three models - 40W or less/100V  
                          60W and 90W/100V  
                          90W or less/200V
